MCI

NEW FLYER

**OE Approved
airflow filter
with over 99.95%
effectiveness in
eliminating viruses
and bacteria**

Patented-protected PuraWard® Antimicrobial Fiber Layer (PWF) - Kills 99.95% viruses by using a copper and silver ion property

How It Works

Copper ions weaken the amino acids of the cell wall allowing silver to invade the cell. The Copper and silver then react with key enzymes to cause sterilization, suffocation and starvation of the pathogen.

FEATURES

- Flow-rate tested and approved for MCI brand coach applications - will not harm fan motor
- No modifications needed - no need for filter frame reconstruction, can be cut and installed in existing filter assemblies
- UL 900, and ASHRAE Compliance
- Manufacture recommends a 3 month replacement schedule
- Typical coach uses ~10ft of material
- No shelf life for the anti-microbial coating – does not degrade over time

NFI Part No.	Description
6482974	FILTER-MERV8, W/PWF FIBERS, 90 FT ROLL (24" WIDE X .05" THICK)

**Also Available
Merv8 Filter
Roll Without
Antimicrobial Layer**

NFI Part No.	Description
6481593	EVAP FILTER ROLL, FILTER POLY FIBER - MERV8
