

# Heavy-Duty Solar Charger and Jump Start Avoidance System Information Sheet

nfi.parts™

MCI

NEW FLYER

Designed and Engineered in the US!

## Heavy-Duty Solar Charger designed to virtually eliminate jump starts

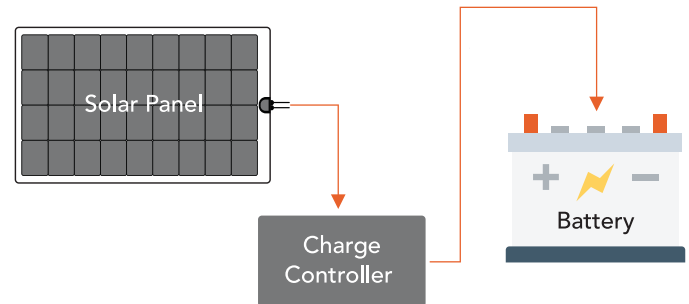

### FEATURES

- Easy to install system with peel & stick panels
- Integrity and Performance Under Extreme Conditions
- 5 year warranty on controller, panel(s), and wiring harness (10 year on panels if installed at MCI Service Centers).

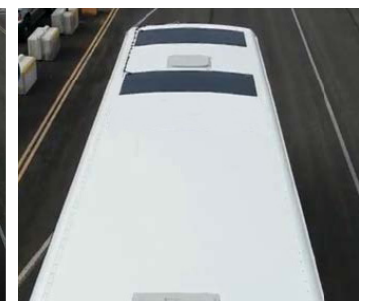

**ROI** Impressive Return On Investment numbers: Thousands of Deployments in North America and Asia

- Scalable idle-free aux power (laptop, cell, AV)
- Battery Jump Start Avoidance (JSA) – Avoid costly road calls or lot jumps
- Increased battery life – Battery cost, labor replacement
- Keeps battery in the sweet spot – helps in preventing the batteries from dipping below 13.2V (which accelerates the sulfation of batteries)

### SCHEMATIC CIRCUIT

1 Panel - 360W system shown

2 panel - 720W system shown
